APRIL IS NATIONAL CREDIT UNION YOUTH MONTH™

Give a Hoot About Saving™

CREDIT UNIONS CELEBRATE YOUTH™

Ramsey encourages parents to be more open with their kids about money, even their failures. Parents' biggest regrets are often not saving enough or going into too much debt, wrote

Ramsey. Being honest about that in an age-appropriate way, he stated, can be a powerful lesson.

So how to start the talk?

- Ask questions. If you're going out to eat, talk about the price difference between the options, and ask them which they would choose. If they select the more expensive, talk through what you might have to give up later in the week.
- Make them part of your budgeting. If you're doing any kind of financial planning for the year, solicit input from your kids. Enlist them in your saving goals—no one watches you more closely than your kids, so they're natural accountability partners! If you're uncomfortable revealing too much of your financial picture, you can keep the discussions high level, but involving them makes money less abstract.
- Open a youth savings account at TFCU. This is the best way to help them to learn to save for what they find meaningful in life. A lifetime of good savings habits can start now!

Teach Your Little Owls to Fly with Money Talks

The first step to teaching your kids about money is talking about money.

The most common reasons given were that the parents didn't want them to worry about financial matters or thought they were too young to understand.

But on his blog, the personal-finance guru and radio host Dave

EMV Debit Cards Coming Soon!

Later this spring TFCU members will begin receiving new EMV debit cards (chip cards) in the mail with an updated look. (Until then use your standard debit card). For added member convenience we will be issuing a unique debit card number to the second party on a multiple owner account. You will receive activation instructions with your new debit card.

We ask that you activate the new card in a timely manner, as your existing, non-EMV debit card will be suspended three weeks after your receive your new card.

Chip technology is becoming the security standard in the U.S. as many merchants are beginning to accept chip cards and we want to make sure you are fully equipped. Plus, you will have greater security when making purchases at a chip-enabled terminal!

Your card will still have the similar mag stripe for use at non-EMV enabled terminals.
